

List of the needs among participants already registered

Updated on: 22/09/2009

| | | |
|----|--|--------|
| 1 | High Quality Vibrating bowl manufacturer | France |
| | AUTO AERO | |
| 2 | Research and advanced Engineering partnership => Universities, Research center, Spin-off start-up likely to help us to develop innovations for our customers | France |
| | AUTO | |
| 3 | Research & Advanced activities to develop innovation for cars | France |
| | AUTO | |
| 4 | Skin packaging | France |
| | AERO | |
| 5 | Sandwich systems | France |
| | AERO | |
| 6 | Polymerization | France |
| | AERO | |
| 7 | Moulding | France |
| | AERO | |
| 8 | Technical Fabrics | France |
| | AERO | |
| 9 | Pneumatics | France |
| | AERO | |
| 10 | Research of technical competences, of Design and Engineering offices abroad. | France |
| | AERO | |
| 11 | Research of partners in research and technology. | France |
| | AERO | |
| 12 | Research of outside contractors in manufacture of composite, in electronics (potency and control) and in the aerothermodynamics. | France |
| | AERO | |
| 13 | Research of partners in Research and Technologies around high tech composite materials. | France |
| | AERO | |
